## 1. INTRODUCTION

This application is of a nature where the Council's Constitution delegates the authority to make the decision to Officers rather than it being determined by the Planning Committee.

Before preparing this summary report the planning officer has considered any relevant previous planning applications in relation to the development and considered any comments made by those interested in the application such as consultees with specialist knowledge and nearby residents.

By indicating that the development proposal complies with relevant Local Plan Policies, the planning officer is taking into account the information submitted with the application, any previous relevant applications, any comments received in connection with the application and any other case specific considerations which are material to the decision.

## 2. DESCRIPTION OF THE SITE AND ITS SURROUNDINGS

The application relates to the Grade II Listed Chapel within the St Mary's University College campus in Strawberry Hill, South Twickenham ward. The campus is located to the east of Waldegrave Road within the Waldegrave Park Teddington Conservation Area CA54 and is Site Allocation 8 in the Local Plan.

The chapel is located in the middle of the site. Immediately north of the chapel are associated buildings built in the 1960s which are designated a Building of Townscape Merit (BTM).

Immediately adjoining the site to the east are the college grounds which are designated Metropolitan Open Land (MOL) and a Grade II Listed Strawberry Hill Historic Park and Registered Garden.

The site is also within an Area of Archaeological Priority (Strawberry Hill).

There are no trees within the application site red line which are protected via a TPO, though there are a number of protected trees and TPO groups on the university campus.

The site sits in Area 9 (St Marys University and surrounds) of the Strawberry Hill Village Character Area.

The site is in Flood Zone 1 though is identified as being susceptible to Groundwater Flooding (between 50 – 75% risk). There is an Article 4 Direction restricting basement development.

## 3. DESCRIPTION OF THE PROPOSAL AND ANY RELEVANT PLANNING HISTORY

The proposal seeks the following alterations:

- Infill extension to the undercroft to provide an extended entrance into the Library.
- Remove the 2no. raised flower beds within the piazza which are outside the Library and Chapel.
- New Glazed guardrails to the Chapel entrance.

It is noted that this application has been submitted in conjunction with [22/0269/FUL](#).

### Determining applications in a Conservation Area

In considering whether to grant planning permission with respect to any buildings or other land in a conservation area, Section 72 of the Planning (Listed buildings and Conservation Areas) Act 1990 requires that special attention shall be paid to the desirability of preserving or enhancing the character or appearance of the Conservation Area. In this context, "preserving", means doing no harm.

To give effect to that duty, decisions of the court have confirmed that for development proposed to be carried out in a conservation area, a decision-maker should accord "considerable importance and weight" to the desirability of preserving or enhancing the character or appearance of the conservation area, when weighing this factor in the balance with other material considerations which have not been given this special statutory status. This creates a strong presumption against granting planning permission where harm to the character or appearance of a conservation area is identified. The presumption can be rebutted by material considerations powerful enough to do so.

In applications where the decision-maker is satisfied that there will be no harm to the character or appearance of a conservation area, the statutory presumption against granting planning permission described above falls away. In such cases the development should be permitted or refused in accordance with the policies of the development plan and other material considerations.

### Determining applications affecting a Listed Building

Sections 16(1) and 66(1) of the Planning (Listed Buildings and Conservation Areas) Act 1990 require that, when considering whether to grant listed building consent for any works, or whether to grant planning permission for development which affects a listed building or its setting, the local planning authority shall have special regard to the desirability of preserving the building or its setting, or any features of special architectural or historic interest which it possesses. In this context, "preserving", means doing no harm.

To give effect to this duty decisions of the court have confirmed that a decision-maker should accord "considerable importance and weight" to the desirability of preserving the listed building or its setting when weighing this factor in the balance with other material considerations which have not been given this special statutory status. However, this does not mean that the weight that the decision-maker must give to the desirability of preserving the building or its setting is uniform. It will depend on, among other things, the extent of the assessed harm and the heritage value of the asset in question. This creates a strong presumption against granting planning permission where harm to a listed building or its setting is identified. The presumption can be rebutted by material considerations powerful enough to do so.

## 6. EXPLANATION OF OFFICER RECOMMENDATION

The key issues for consideration are:

- i Design and impact on heritage assets

### Issue i - Design and impact on heritage assets

*The statutory duty in Sections 66 and 72 of the Planning (Listed Buildings and Conservation Areas) Act 1990*

*requires that special attention is paid to the desirability of preserving or enhancing the character or appearance of a Listed Building and Conservation Area.*

*Paras 199 – 208 of Chapter 16 ‘Conserving and Enhancing the Historic Environment’ of the NPPF state that great weight should be given to the conservation of designated assets when considering the impact of a proposed development on the significance of a designated heritage asset. Para. 203 states that the effect of an application on the significance of a non-designated heritage asset should be taken into account in determining the application.*

*Policy LP1 of the Local Plan seeks to maintain and, where possible, enhance the high architectural and urban design quality which contributes to the character and heritage of the area.*

*Policy LP3 of the Local Plan 2018 covers Designated Heritage Asset and states that proposals should conserve and take opportunity to make positive contribution to the historic environment such as retaining and preserving the original structure, layout, architectural features and materials or reinstatement of heritage assets. Appropriate materials and techniques should be used. There is a requirement to seek to avoid harm or justify for loss and demolition will be resisted. The significance of the asset is taken into consideration when assessing works proposed to a designated heritage asset.*

*Local Plan Policy LP4 relates to non-designated heritage assets. This states that the Council will seek to preserve, and where possible, enhance the significance, character and setting of non-designated heritage assets, including BTMs.*

*Further guidance is provided in the Council’s SPDs on BTMs and Design Quality, the Village Planning Guidance for the area and the Waldegrave Park Teddington Conservation Area Statement.*

The current proposals are for an infill extension to the undercroft to provide an extended entrance into the Library, and new glazed guardrails to the Chapel entrance. It is noted that the Council have already commented on the undercroft extension proposal, approved under 21/0483/FUL.

Both Historic England and LBRuT conservation officer were concerned about the reflections that glazed panels behind the railings might cause, which would affect the appearance and therefore architectural significance of the building. These concerns were discussed with the applicant on site, and also appropriate fixings for any additional structure behind the railings.

Revisions were received 23<sup>rd</sup> September 2022 following these discussions.

It is still proposed to install glazed panels but these will be fixed to the back of the coping stones behind the railings. The glazed panels will have no visible frames apart from the base channel behind the coping stones. Anti-reflective glass will now be used for the glazed panels and details and a mock-up have also been provided to demonstrate this.

As the detailed design for these protective railings has now been developed further and the previous concerns addressed the Council’s conservation officer has no objection to the amended proposals.

A condition will be included to ensure the stainless steel fixings be painted black to match the existing railings and to help the channel to recede visually as much as possible when seen from the paved area in front of the chapel entrance.

The revised proposals will preserve the special character and appearance of the listed building and will therefore maintain its significance. There will be no harm to the fabric of the listed building as fixings have been reduced to a minimum.

The proposal will therefore result in no harm to the character and fabric of the listed building and the character of the wider CA. As such, the alterations will be compliant with the Local Plan policies LP1, LP3 and LP4 as well as section 190-196 of the NPPF.

## **7. LOCAL FINANCE CONSIDERATIONS AND OTHER MATTERS**

Section 70(2) of the Town and Country Planning Act 1990 (as amended) provides that a local planning authority must have regard to a local finance consideration as far as it is material. The weight to be attached to a local finance consideration remains a matter for the decision maker. The Mayor of London’s CIL and Richmond CIL are therefore material considerations.

On initial assessment this development is not considered liable for the Mayoral or Richmond CIL however

this is subject to confirmation by the CIL Administration Team

**8. RECOMMENDATION**

This recommendation is made following careful consideration of all the issues raised through the application process. In making this recommendation consideration has been had to the statutory duties imposed by the Planning (Listed Buildings and Conservation Areas) Act 1990 and the requirements set out in Chapter 16 of the NPPF.

Paragraph 11 of the Framework explains how the presumption in favour of sustainable development applies. For the reasons set out above, this application falls to be determined in accordance with the test under section 38(6) of the 2004 Act, the proposal is in general conformity with the Development Plan overall and there are no material considerations of sufficient weight to justify refusal.
