Comments

Type of comment: Support the proposal

Comment: A fantastic idea to make fit for purpose facilities to engage with and educate young people. All too often we are hearing of the challenges facing our children and young people around mental health, obesity, social skills, employability skills, resilience and more. Not to mention the much needed childcare during holiday periods for parents, it's still cheaper than a nursery place! To have a service that is education focused and supports all young people with these daily challenges, so they can thrive and be contributing members of the community is essential for our society going forward. The footprint looks similar, facilities seem similar to what is already there but modernised [when was it originally built?] and it's so we can support and educate our children and community groups. I definitely support anything that helps with that.
