Comment: I have reviewed the proposal, together with the Transport Assessment dated March 2022. I do not see that the proposed 'Highway enhancements' will be sufficient to mitigate the significant additional traffic - both during construction and following. Chalker's Corner is already one of the worst junctions in London for congestion and pollution, a result of natural constrictions caused by the river, the railway line and local parks. It seems like madness to me to add to this by allowing a development of this scale.
