Comments

Type of comment: Object to the proposal

Comment: I object to the housing application. I have lived in Sheen for 40 years so I am well versed in the problems and issues facing the local community. This application wholly fails to address the infrastructure problems that would be exacerbated by the huge increase in residents. The minor revisions proposed have not even addressed the transport issues. I have to say that my opinions have hardened because the applicants seem determined to ignore relevant questions.

I note that the school application appears to be on hold pending reconsideration of local need. In the absence of full information it is not timely to comment on this part of the redevelopment.

In general I support the representations made by MESS.
