Type of comment: Object to the proposal

Comment: I am unable to find any plan or investigation into the traffic consequences of all the extra cars resulting from the new flats and housing. I live in a side street off N. Worple way and already we are blighted by rat runners trying to avoid the nose to tail traffic in Mortlake High street and the Lower Richmond Road which all come to a head at Chalkers corner.

This section of road is blocked for a large percentage of the day with the present traffic load and has been exacerbated by the closure of Hammersmith Bridge. therefore traffic management considerations and new public transport proposals are essential for this planning application.
