Comment: School provision is unnecessary for this Mortlake site. Destruction of the present green open space and trees would have an adverse effect on the local area and increase pollution.

The artificial sports pitches and flood lights would have a detrimental result on all local residents and wildlife.

Planning for the remaining brewery site as currently submitted, indicates an exceptionally dense building programme. The additional increase of traffic and footfall caused by the school and associated works, would have an immense impact locally.

It would have further implications for an already over-burdened transport system.
