### Comments

**Type of comment:** Object to the proposal

**Comment:** I would like to reiterate my previous objections, including in respect of scale, density and height. I am also concerned about the reduction in 'affordable' housing.

With regard to the generation of traffic, my previous comments apply. The sensitivity of Chalker's Corner was further demonstrated when lanes were closed on the A316 and temporary traffic lights were operating for Thames Water works following the water mains burst / leak. The impact on the area was very evident, exacerbating the normal considerable congestion.

I support the comments of the Mortlake with East Sheen Society.
