Details of the pre-application advice received

Subject to taking on board the suggested amendments and providing an acceptable Flood Risk Assessment and a Fire Safety Statement, the proposed development is likely to be considered acceptable.

Suggested amendments being; The single storey additions would be acceptable in design and visual amenity as submitted, however the first-floor extension would need to be amended in order to be seen favourably.

This is mainly because of its flat roof, that even though would trigger subservience to the host property, would not be in keeping the established character and appearance of the side of Church Road visible from Luther Road that sees pitched roof coverings dominance. The proposed flat roof would be visible from Luther Road.

If the first-floor addition is amended so as to present a more traditional style covering, such as a pitched or mono-pitched roof, this part of the scheme would have a more likely chance to be acceptable in design and visual amenity and therefore resulting in no harm to the significance of the Conservation Area.

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
