Comments

Type of comment: Object to the proposal

Comment: With regards to proposed development we would like to make the following objections

1. As per previous proposal this new proposal of 5 storeys of commercial and residential properties is only going to be 20 metres from our back fence therefore it is massively overbearing and un neighbourly. We will lose light and privacy the windows and balconies will look straight into our bedrooms. This is a conservation area therefore these massive buildings are totally out of keeping with Hampton Hill which is still classed as a village.
2. Furthermore having utilities vehicles, pedestrians and cars running along our back fences will be noisy, add to pollution levels and be to the detriment of our homes for security reasons too.
3. The added vehicles and complete lack of adequate parking on the site will create more congestion on the surrounding roads and a major parking issue within what is already a traffic congestion hot spot, especially during the school drop off times morning and early evening, this is all now much worse since the closure of through traffic in Bushy Park which has added approximately 1000 vehicles a day to the high street a point which has not been addressed since their last traffic survey.

We totally object to this planning application for the above reasons.
