Comments

Type of comment: Object to the proposal

Comment: I accept that affordable housing is necessary but this proposal in its current form is not viable. The infrastructure in and around Hampton Hill such as GP s , schools , roads , parking and public transport can not support this volume of proposed residential units . A five storey building in or near the conservation area of Hampton Hill high street would totally ruin the current architectural beauty of the area.

The roads surrounding the development are very congested and a number of low density traffic schemes are in situ which this proposal, should it go ahead , would totally cancel out . Air pollution would deteriorate with increased traffic and the current proposal has no where near enough allocated parking for the number of residential and commercial units proposed.
