Type of comment: Object to the proposal

Comment: This application will, in my opinion, not benefit the local area in any way shape or form. The large development of flats in this area is t in keeping with the surrounding areas and not in the area plan the council has made. Although they have brought it down a storey the machinery still placed on top will make this an eye sore and not in keeping with the buildings around. The vehicle study is all wrong and out of date, both for the building phase and the residential. How many builders use public transport or a bike? The health centre in Hampton Hill is over subscribed and it takes over 4 weeks to get a routine Dr's appointment. Putting more people into this will put our local services at breaking point. With the extra cars on the streets, with the Burtons Road issue this will only cause more issues for Windmill Road and Holly Road as rat runs. Windmill Road is a very busy pedestrian route for those going to Hampton Hill juniors school and the timings wanted for large deliveries makes for an accident waiting to happen. I believe the traffic plan to be floored as the surveys were all done pre pandemic, pre Burtons Road and the Road through Bushy park closures. Hampton Hill high street cannot take anymore traffic at rush hour times.
For these and many other reasons previously stated, I object to this proposal.
