### Comments

**Type of comment:** Object to the proposal

**Comment:** Main objection is to the height and size of the development. Three floors - fine but five is incongruous with the surroundings and would have a significant impact on light levels, privacy for existing properties, traffic/parking and the general environment.

Also how can the infrastructure cope with a build this size - barely a week goes by without Thames Water having to do something about the sewerage system. Not that mention pressure on GPS, schools, parking etc.
