Dear Sirs

I enclose a letter commenting on the redevelopment of the former Stag Brewery site in Mortlake which I believe has not taken into account the existing infrastructure in the area which is already under huge pressure and unable to cope with today's local environment. This is my main concern alongside others as you will see from the letter.

I am not against a development but it needs to be one that takes into due consideration the local environment, the needs thereof and what can be supported.

With kind regards
