Eligibility

Permitted development rights are subject to conditions set by legislation to ensure that only appropriate proposals are eligible.

The need to apply to the Local Planning Authority to see if prior approval is required is one such condition.

The questions below will help determine if the proposals are eligible for this permitted development right.

Would the cumulative footprint of any erection, extension or alteration under this permitted development right (on or after 21st April 2021) exceed the greater of:

- 25% of the cumulative footprint of the university buildings (as it was on 21st April 2021); or
- 250 square metres

Yes

No

Would any part of the proposed development be within 5 metres of a boundary of the curtilage of the premises?

Yes

No

Would, as a result of the development, any land used as a playing field at any time in the 5 years before the development commenced (and remaining in this use) no longer be able to be used as such?

Yes

No

Would the height of any new building erected, or any building extended or altered exceed:

- 5 metres (where it is within 10 metres of a boundary of the curtilage of the premises);
- 6 metres in all other cases; or
- where relevant, the height of the existing building that is proposed to be extended or altered

Yes

No

Would the height of any rooftop structure exceed 1.5 metres?

Yes

No

Is the predominant use of the existing buildings on the premises for the provision of education?

Yes

No

Would the development be within the curtilage of an existing university, and only be used as part of, or for a purpose incidental to, the use of that university?

Yes

No

Would the development be within the curtilage of a listed building?

Yes

No

If any part of the development would be on land:

- in a conservation area
- in an area of outstanding natural beauty
- in an area specified by the Secretary of State for the purposes of enhancement and protection of the natural beauty and amenity of the countryside;
- in the Broads;
- in a National Park; or
- in a World Heritage Site

would any new building erected, or any building extended or altered be constructed using materials which have a similar external appearance to those used for the original university buildings, or the building being extended or altered?

Yes/Not relevant

No

Description of Proposed Works, Impacts and Risks

Please describe the proposed development including details of any works proposed

The proposed development comprises of a new entrance foyer to the Student Union.

Please provide details of the design and external appearance of any new building erected, or any building extended or altered

The proposed material palette is to match the existing using buff facing bricks with the introduction of two living walls to soften the south end of the building. The roof material would also reflect the existing buildings.

Please provide details of any transport and highways impacts and how these will be mitigated

The intention of this proposal is to enhance the student experience without increasing student numbers, so the size of the extension would have no impact to the local transport and highways. To offset the loss of existing parking spaces, the university is creating new parking spaces throughout the campus.

Please provide details on the heritage and archaeological considerations of the development including the impacts on heritage and archaeology and how these will be mitigated:

The listed buildings, park and garden within the campus are all situated to the north of the proposed site with no visual links. The proposed extensions would not therefore have any adverse impact on the setting of the listed buildings, park and garden or conservation area. In terms of archaeology, given the minor scale of the extensions, it is not considered the proposal would adversely affect archaeology.
