Comment: Overall, I support the development of the brewery site, subject to sufficient investment in the surrounding travel infrastructure. However, a secondary school is not required in this area. The closest existing secondary schools have said they have sufficient space. I would support reverting to the original proposal for a primary school and to move the existing Thomson House school there, away from its current position, situated in two buildings (one in disrepair and with no outside space) across a major train line. The railway crossing is considered high risk by National Rail. If Thomson House was moved there, I am confident it would receive significant support from the local community.
