Comment: This proposal will have a direct adverse impact on us both in terms of loss of amenity (views) as well as congestion. Whilst we agree that the current structure is an eyesore, we believe that the increase of GIA by over 60% constitutes over-development in such a sensitive area, particularly in terms of height. Given that public flood defences for Martineau Drive/Pomeroy Close have not been maintained, leading to river flooding (including of our house), one could conclude that development should not be maximised.
