### Comments

**Type of comment:** Make a general observation

**Comment:** The present structure is an eyesore and although it might have some history to it (recording studio of The Who) it would benefit from a total change. The proposed THREE houses seem excessive and are certainly too high. If the development was for TWO houses having just ground and first floor levels it would give a far less dense development feel while still giving the developer the same square footage. I would add that in my view it is a boring design and lacks imagination - what a lost opportunity to build a striking landmark on this amazing site.
