**Comment:** I was appalled to learn last week that there is a proposal to build maisonettes on the plot of land in Cambridge Park. I have lived here for 55 years and that plot has always been an open, green area.

Any building work must surely damage the root structure of the large, very old trees in the area. There is also all the wildlife attracted to the area to consider. This is what makes the Cambridge Park area such a pleasure to live in.

With climate change to consider, we should not be building over an area of natural drainage.
