Comments

Type of comment: Object to the proposal

Comment: My objection to this proposal is due to traffic safety. There is already a safety traffic issue which the council need to address, the building of these dwellings will only exasperate the problem which requires dealing with. During peak morning and evening times children and adults are having to carefully watch how they walk along the pavements and cross the railway bridge because of the one way system . Simply too many cars trying to get to a similar area . These dwellings will add to the problem . However much they insist they will be car free. People simply are not due to individual circumstances . The small roads Windmill and Holly Road cannot uphold the current traffic let alone additional traffic.

The current height is unsightly on the current landscape . Private Dwellings that are applying for planning permissions would not get planning consent for a building of this height and magnitude . If it was reduced in height and the current traffic system addressed I would be more fore the planning application.
