Comments

Type of comment: Support the proposal

Comment: I am a local resident and am acquainted with the land in question.

I have often wondered why the land had not been developed for much needed housing. There are no doubt challenges with a site of that nature. The trees and ecology would need to be safeguarded, and any proposal go the extra mile to ensure a quality sustainable development that fits into the local environment be carried out.

I believe this application meets those criteria. I particularly applaud the efforts made to achieve a low-energy building of quality. We need housing, and we need so many more truly sustainable buildings. This planning application would deliver those requirements.

I therefore support this planning application
