**Type of comment:** Object to the proposal

**Comment:** I believe that the reasons the plot was left vacant at the time of development of the current buildings should be considered. Even then the developers kept well clear. The National Archive Records show a WWII high explosive bomb strike there. It may be the case that the developers kept clear due to hazards such as toxic chemical remnants of explosive, obstruction or concern of other unlocated devices. Leaving well alone may be the wisest, least risk approach, aside from the high risk to the trees by excavation and removing the necessary Tree Protection and nutrient zone.
