Type of comment: Object to the proposal

Comment: I object to the proposal on two grounds:

- 1) The development will impact heavily and negatively on surrounding roads in an already very congested area. The transport infrastructure is not adequate to accommodate additional traffic, particularly Chalker's Corner and the Mortlake Station junction. This is compounded by the fact that the area is already heavily and adversely affected by the prolonged closure of Hammersmith Bridge.
- 2) The development will also have detrimental health consequences for residents, and particularly children, due to CO2 and NOX emissions released from idling cars and lorries.

It is my opinion that without proper consideration to transport infrastructure the project should not be allowed to proceed.
