Comments

Type of comment: Object to the proposal

Comment: I object to the validity of the parking survey, which appears to have been carried out almost 5 years ago, and done so at deliberately quiet times in order to avoid capturing the busy 9am to 5pm period when workers at the businesses on Station Road, Thames Water and trades people jostle for parking spaces. Between 11-12 midday is particularly busy, when cars are shifted off Station road, onto the surrounding residential roads making it very difficult to find spaces. Parking is already beyond capacity. Please can this be reviewed independently.
