Comments

Type of comment: Object to the proposal

Comment: I object to the application on the following basis:

- Adequacy of parking/loading/turning
- Highway safety
- Traffic generation

There is already a distinct lack of parking in the area. Estate agents, those using Hampton station and current residents are already parked bumper to bumper making it increasingly difficult for families to park near their homes. On top of this, congestion at the station road and A3008 junction is already dire as is the queuing traffic along the A308. Adding even more vehicles from new residents and builders is completely unsustainable, with idling engines polluting the area and queues lasting in excess of 30 minutes just to leave the Hampton area. This excessive queuing also causes frustration and drivers to do u-turns to avoid the traffic. I have witnessed collisions and accidents happening as a result of this.
