**Comment:** The amount of parking on site assumes overflow parking in local streets. I can only assume no one has ever tried to do this as local residents struggle all the time to park their own cars and tradespeople can often not park near houses they are working on. Some roads are seriously considering controlled parking as it is so bad. Please consider parking outside the site a non starter and provide enough space for visitors as well as residents. we should all cut down use of our cars but the train service on the Shepperton line is abysmal and on sunday almost non existent
