The Form and Materials of the Heritage asset

A Terrace shop set within a parade of 8 Shops with Various Designs and materials used for Shop Fronts.

Previous / Existing Shop front has an Aluminium Frame with Glazing

3x Aluminium Roller Shutters

There are no Historical Buildings nearby.

The Significance of the Asset

There is no Historic Record on this Building.

The only interesting feature are the Pillars on the Party walls which will be retained. Apart from that, there is nothing of significant on the shop front.

The Proposed Works

Removal of Existing 3x Roller Shutters and their Individual tracks.

Removal of Existing Aluminium Frame and Glazing

Installation of New Aluminium Frame with Glazing but without any Roller Shutters

The Impact on the Asset

The Proposed works will Enhance not only the shop but the Parade as a whole. This shop is probably the last shop on this road that still has Roller shutters installed on it. Removal of the Roller shutters and installing higher glazing will give a look of a much cleaner design and bring out the Historical Features like the Pillars visibly.

The Previous / Existing Shopfront has no features that would be considered as Historical or Interesting.
