

Charles Dodd

Welcome to The Window & Door Centre Ltd...

Thank you for your recent interest in The Window & Door Centre Ltd and Origin.

Here at The Window & Door Centre Ltd, we are proud to be partnered with Origin – the UK's leading manufacturer of aluminium Bi-folding Doors, Internal Doors, Residential Doors, Sliding Doors and Windows.

In addition to being visually captivating, all of Origin's products are entirely bespoke. This allows us to work together to make your project truly unique and special, as everything is tailored precisely to your stylistic and functional requirements. From the colours and sizes right through to the hardware, you're in complete control.

Designed and manufactured to perform and built to last, all Origin products are exceptionally crafted in the state-of-the-art Buckinghamshire based factory and come with an industry-leading guarantee on parts for absolute peace of mind.

After our preliminary discussions, we are delighted to outline the following specification.

For additional information or to take the next step in turning your house into an Origin Home, contact us today. We look forward to hearing from you.

Best wishes,

The Window & Door Centre Ltd

Key features of Origin Doors...

Award-winning...

Origin were recently crowned the Bi-folding Door Manufacturer of the Year in the National Fenestration Awards. This award is chosen by voting, so you can be confident you're making a great choice for your home by using an award-winning product.

British designed and manufactured...

All Origin products are manufactured in the UK, by Origin, which means there is central control over every product. The Door Collection has been specifically designed to meet the demands of the UK market, which has resulted in superior weather rating, security and aesthetic appeal.

Each sash can be up to 1.2m wide...

This means that the aperture can be filled with fewer sashes, meaning less profile and more glass can be achieved, helping make the most of the surrounding views.

Finger safe gaskets...

The Origin Door features a special safety system to keep the whole family safe. The unique gaskets are finger safe, meaning they prevent fingers being trapped between doors, which is ideal for those with children.

Industry-leading guarantee...

Origin Doors come with an industry-leading guarantee that covers every part that leaves the factory, even the profile, powder coated finish and hardware.*

*Guarantee length based on location of where the doors will be installed.

150+ colours and dual colour options...

The Origin Door is available in over 150 different colours, as well as dual colour options. Also on offer for the OB-72 are two authentic woodgrain effects - Natural Oak and Golden Oak. Additionally, certain handles and all hinges can be colour coded.

Security is key...

Security is essential and Origin have developed a completely secure and unique 8-point locking system which can be used for both systems (OB-49 and OB-72). Proven to protect against bumping, drilling and snapping, not only can both systems conform to industry standards including PAS 24:2016, but they can also achieve the prestigious Secured by Design status.

Slim sightlines...

The Origin Bi-fold is now available in three sightlines. The ultra-slim OB-36* Soho Bi-fold, the super-slim OB-49, and the OB-72. The OB-36* blends seamlessly into any setting, with ultra-slim sightlines of just 36mm. The OB-49 maximises the panoramic view of surroundings by offering super-slim sightlines of just 49mm. The OB-72 offers a more traditional style with 72mm sightlines and chamfered beading.

Two threshold options...

Weathered and non-weathered threshold options are available. The weathered threshold for external installations has a lip of just 18mm, and is sure to keep the doors weathertight. The non-weathered threshold offers a minimal transition, but is more suited for internal use.

Unrivalled quality...

Origin use only prime billets, meaning that products have never been produced through the re-melting of scrap aluminium. This results in a higher control of the chemical properties in the billet, thus achieving a higher quality finish.

Key features of Origin Windows...

Aerogel...

The world's best insulator, Aerogel is used to insulate space shuttles, and has been adopted by Origin for use in the OW-80 to help boost the windows thermal efficiency, allowing it to achieve unrivalled U-Values.

Available in all configurations...

The OW-80 is available in all configurations whether it be gable, bay, casement, fixed or French. The OW-70 comes only as a casement, fixed or bay. Glazing bars / trim is also available for that extra level of customisation.

British manufactured...

All Origin products are manufactured in the UK, by Origin, giving a central control of the overall finish. Both the OW-70 and OW-80 have been designed specifically to meet the demands of the UK market, which has resulted in superior weather rating, security and aesthetic appeal.

Industry-leading guarantee...

Origin's industry-leading guarantee on parts covers both the OW-70 and OW-80.* This guarantee covers every part that leaves the factory, even the aluminium profile, powder coated finish and hardware.

*Guarantee length based on location of where the windows will be installed.

Internal and external flush casement...

Smart and clean in appearance, the OW-80 sash sits neatly inside the window frame, creating an industry-first internal and external flush casement. On the OW-70, the elegant and simplistic external flush casement complements the slimline frame.

150+ colours and dual colour options...

Both the OW-70 and OW-80 are available to be specified in over 150 different colours as well as in a dual colour option. This allows you to match or contrast the interior and exterior of your windows. The OW-80 is also available to be specified in 2 authentic woodgrain effects.

Security is key...

Security is essential and both Origin Windows can conform to PAS 24:2016 and Secured by Design accreditations. Both windows have also been extensively cycle-tested, ensuring they are durable and perform to the highest standards.

Thermally efficient...

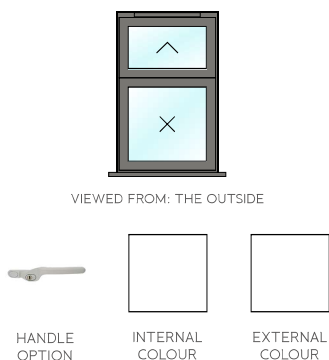

With advanced triple weather seals and optimised weatherproofing, both the OW-70 and OW-80 can achieve low U-Value ratings. Every Origin Window surpasses British Building Regulation requirements.
