Proposal: Proposed ground floor rear and side extensions

Comments Made By

Name: Mrs. Sian Sturton

Address: 107 Rectory Grove Hampton TW12 1EG

Comments

Type of comment: Object to the proposal

Comment: I was surprised to see this application to fell the magnificent healthy oak tree that has been a cherished view for my 47 years living in this area.

This tree has existed in perfect harmony with the house and indeed previous owners for over 100 years not only a fantastic habitat for all wildlife but also enhancing the local environment.

I note from the application that this apparently due to subsidence caused by the tree, I suspect that this could be due to decaying drainage as I have often seen drainage contractors at the address in the last year or so, is there going to be a published report confirming the subsidence is primarily caused by the tree?.

I do hope you will consider the objection to the unnecessary and upsetting felling of this tree so generations to come can continue appreciate its magnificence .
