Biodiversity net gain

Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 sets out that every planning permission granted for the development of land in England shall be deemed to have been granted subject to the 'biodiversity gain condition' requiring development to achieve a net gain of 10% of biodiversity value.

This is subject to exemptions, an exemption applies in relation to planning permission for a development which is the subject of a householder application, within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order (2015)*.

Applicants for planning permission are required to make a statement as to whether they believe the biodiversity gain condition will apply if permission is granted, please confirm:

- It is my belief that if permission is granted for the development to which this application relates the biodiversity gain condition would not apply

*A 'householder application' means an application for planning permission for development for an existing dwellinghouse, or development within the curtilage of such a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse which is not an application for change of use or an application to change the number of dwellings in a building.

Garage Block: There is no objection to the demolition of the existing garage block which does not appear to hold architectural or historic merit. The proposed replacement garage block is to be significantly larger than the existing in regard to providing floorspace for 2 cars and adding an additional storey. There is concern that this significant increase in bulk and massing, in combination with its siting adjacent to the highway and at a distance from the associated dwelling would result in the garage block being perceived as a separate dwelling rather than a subservient outbuilding. While the construction of a garage to replace the existing is not objected to in principle, it is recommended that the design is amended to a more discrete, single storey garage design. It is also acknowledged that the proposed garage block adjoins the neighbouring dwelling at No. 1 Fife Road, this is a legal matter and will be subject to party wall agreements.

Vehicle Access/Gates: The design and access statement notes that both pedestrian and vehicular access points will remain as existing with new gates. Elevations of the proposed gates would be required in a planning application. The proposed materiality of the gates should be sympathetic to the host dwelling and wider Conservation Area.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

 No
