Type of comment: Object to the proposal

Comment: i have lived in the TEDDINGTON AREA for over 40 years. There is not a lot I can add to what other objectors have said in opposing this retrospective application. This was an attractive part of the street scape as it was and the changes should never have taken place before obtaining planning permission. It is in a Conservation Area and also a building of Townscape Merit and the application should not only be refused but the developer should be required to substantially return the shop front to the way it was in the photos showing how it was previously..

I note too that in particular the Teddington Society has serious objections to allowing the changes made to be retained.
