### Comments Made By

**Name:** Mrs. Veronica Congdon

**Address:** 81 South Worple Way East Sheen London SW14 8NG

### Comments

**Type of comment:** Object to the proposal

**Comment:** A decision was due more than 2 years ago! Can LBRUT seriously not find a slot in their Committee schedule to rule on this case??? Maybe you are waiting for Hammersmith Bridge to open first? As we have more time, I can add that the 5 new houses built on the other end of South Worple way have now been completed and the developers very sensibly asked for road widening to improve road and pedestrian safety ( lots of mothers with buggies coming along the pavement to schools. THIS scheme, however has not taken any road widening into account, a dangerous hazard to myself who cycles this way often, as the road pitches as you get beyond the cemetery and coming up to White Hart Lane. in short, I emphasise again, that road safety, especially for deliveries and construction needs to be thoroughly assessed. I look forward to receiving news of a Committee hearing so that we might prepare our case- I'll start wearing a head cam when cycling past next....
