### 1. Notes

- 1.1. All specified electrical equipment and apparatus is equal and approved unless otherwise specified. Any products submitted by the MEP Contractor as alternatives shall be reviewed and approved or reject accordingly by CBC, The Main Contractor, The Client and the Clients Professional Team.
- 1.2. Reference shall be made to the client's specification documents.
- 1.3. Reference shall be made to the client's specification documents.
- 1.4. Reference shall be made to the electrical stage 4 drawings when reading this drawing.
- 1.5. The Electrical Contractor shall be responsible for checking all part numbers prior to ordering any materials.
- 1.6. The Electrical Contractor shall be responsible for providing samples at the request of the client.
- 1.7. The client shall sign of all products and samples prior to the Electrical Contractor placing orders for any of the materials.
- 1.8. Any discrepancies in part numbers or descriptions of products shall be brought to the attention of Henry Construction and Cudd Bentley Consulting.
- 1.9. Any alternative products put forward as equal and approved need to be signed off prior to procurement by Cudd Bentley, HCPL and the Client.
- 1.10. The Electrical Contractor shall be responsible for ensuring all drivers within light fittings are compatible with the control methods.

## 2. Distribution Equipment

<u>Item</u>	<u>Specification or Range (Equal and Approved)</u>	<u>Manufacturer (Equal and Approved)</u>	<u>Remarks</u>	<u>Picture</u>
Consumer Unit.	NM.	Wylex.	Refer to drawings for outgoing ways. 63A or 100A (if required due to manufacturers products) switch disconnecter incomer. Non-combustible material. AFDD / RCBO's on outgoing ways. Surge protection to be installed.	
Distribution Board	Acti 9 Isobar B P. Split metered. Distribution board. 250A - 400/415V. Three pole and neutral.	Schneider Electric.	Enclosure material: Steel, Epoxy. Enclosure Type: Standard. Enclosure Mounting: Surface. Cream (RAL 9001). Poles description: 3P + N. Breaking capacity: 25 Ka. Split metered. Refer to drawings for outgoing ways.	
Ryefield Board.	As stated on drawings.	Ryefield.	Refer to drawings for outgoing ways. Lift off hinged covers with padlock attachment and Mul-T-Lock. Rated fused short circuit current 50kA at 415V. Surge protection to be installed. Wall / floor mounted.

<u>NHS Unit</u>				
Fire Alarm Contractor to be used for works within NHS area; Chameleon, Sterling House, 20 Station Road, Gerrards Cross, SL9 8EL.				
Fire Alarm Panel	ZX Series control panel; ZX5SE 1-5 loop.	Morley	230Vac. 4 sounder circuits. 4 line display and networking capability. 6 Amp PSU with 460mA loop capability 500 x 500 x 195mm (H x W x D).	
Fire Alarm Interface.	Intelligent Twin Input/output Unit.	Apollo Fire	Supply Voltage: 17-35 V dc The Intelligent Twin Input/output Unit provides the function of two Input/output Units within one enclosure. The two units are electrically independent of each other. There is a DIL switch on each unit to set the address.	
Smoke detector.	SIL Discovery Multisensor detector.	Apollo Fire	The Discovery Optical/ Heat Multisensor detector is designed to be connected to a two-wire loop circuit carrying both data and a 17 V to 28 V dc supply. A remote LED indicator requiring not more than 4 mA at 5 V may be connected between the +R and -R terminals.

## 8. Cable Schedule

<u>Item</u>	<u>Specification or Range (Equal and Approved)</u>	<u>Manufacturer (Equal and Approved)</u>	<u>Remarks</u>	<u>Picture</u>
Fire Rated Cabling	FP200+ Enhanced FP400+ Enhanced FP600+ Enhanced	Prysmian.	To be used on primary and secondary supplies serving life safety equipment. To be diversely routed. In compliance with BS 8519.	
Flexible Cord	LSZH.	Doncaster Cables. Lapp Group. Draka.	Low smoke zero halogen. White. Maximum of 10m length. To be used on serving equipment via isolators.	
Armoured Cables	XLPE. LSZH.	Doncaster Cables. Lapp Group. Draka.	Low smoke zero halogen. To be used for sub-mains distribution. XLPE insulated.	
Twin and Earth	LSZH.	Doncaster Cables. Lapp Group. Draka.	Low smoke zero halogen. Grey. To be used for final circuit wiring within the apartments only.

## Electrical Equipment Schedule

<u>Item</u>	<u>Specification or Range (Equal and Approved)</u>	<u>Manufacturer (Equal and Approved)</u>	<u>Remarks</u>	<u>Picture</u>
Single Core Cables	XLPE. LSZH.	Doncaster Cables. Lapp Group. Draka.	Low smoke zero halogen. XLPE insulated. To be used for final circuits within landlords' areas.	
Single-Mode Fibre Cabling	Screened. OM4.	Contractor / Specialist Choice.	Low smoke zero halogen. Tight buffered. To be used for communications wiring. To specialists' requirements. To be segregated from mains power circuits.	
Multi-Mode Fibre Cabling	Screened. OM4.	Contractor / Specialist Choice.	Low smoke zero halogen. Tight buffered. To be used for communications wiring. To specialists' requirements. To be segregated from mains power circuits.	
Cat6A Communication Cabling	Screened. PVC.	Contractor / Specialist Choice.	Low smoke zero halogen. To be used for communications wiring. To be segregated from mains power circuits.

### 13. Nurse Call System

<u>Item</u>	<u>Specification or Range (Equal and Approved)</u>	<u>Manufacturer (Equal and Approved)</u>	<u>Remarks</u>	<u>Picture</u>
Addressable Infrared Call Point	Quantec Addressable Infrared Call Point, Button Reset c/w Iconised Label, Sounder & Remote Socket. QT602ERS.	C-TEC	Programmable addressable call point c/w iconised label, infrared receiver, call follower sounder and remote jack socket. Includes a Call button, Reset buttons and red/green confidence light. Onboard infrared receiver accepts calls from compatible Quantec infrared transmitters.	
Addressable Overdoor Light c/w Sounder	Addressable Overdoor Light c/w Sounder. QT606A.	C-TEC	Addressable overdoor light & sounder. Can be programmed to illuminate and sound when certain groups of call points are calling. Adjustable volume control. Dual red and green LEDs.	
Quantec Controller	QT601-2.	C-TEC	Supplies power to and controls a Quantec Addressable Call System. Monitors all network devices and manages the routing and distribution of all calls. Provides connections for network wiring, standby batteries. Standby batteries to be included for. Fully-flushed using a BF359/3S stainless steel enclosure.

## 15. Induction Loops

<u>Item</u>	<u>Specification or Range (Equal and Approved)</u>	<u>Manufacturer (Equal and Approved)</u>	<u>Remarks</u>	<u>Picture</u>
Induction Loop Kit.	200m2 Meeting/Seminar Room Hearing Loop Kit.	CTEC	Includes a hearing loop amplifier, APM omni-directional plated microphone and Belden cable. For a meeting or seminar room. Wall-mountable amplifier. Internal drive, level and metal compensation controls. Two balanced / unbalanced line level inputs. One microphone input with 12V phantom power for electret microphones. Fully compliant with BS EN 60118-4.	
Induction Loop Kit.	200m2 Waiting Room Hearing Loop Kit	CTEC	Includes a hearing loop amplifier, APM omni-directional plated microphone and Belden cable. For a waiting room. Wall-mountable amplifier. Internal drive, level and metal compensation controls. Two balanced / unbalanced line level inputs. One microphone input with 12V phantom power for electret microphones. Fully compliant with BS EN 60118-4.
