Comment: I wish to object to this application on the grounds of Neighbour Amenity under LP8 the local plan and also Policy 64 of the draft local plan (reg 19).

The application should be considered on the basis of it's real impact and not it's implied impact as per the application.

The real intention is to turn a residential garden into a commercial soft play and swimming pool centre that will be available to all kids attending the different Aston Pierpoint establishments across Hampton.

This will grant 24-7 access to in excess of 200 children creating noise and nuisance beyond that of a residential garden (as suggested in the application). There is not sufficient access and/or parking for a facility like this and the existing infrastructure is already strained.

Residential gardens serve a different purpose to running a commercial business and the council must enforce this.
