

Design and Fire Statement Planning for the replacement of the windows at.

GROUND FLOOR FLAT, 18 BELGRADE ROAD, HAMPTON, MIDDLESEX, TW12 2AZ.

The property is split into ground and 1st floor accommodation.

The existing windows are white timber with single glazing. The windows are either sliding sashes or casement openings.

These windows are to be replaced with 24mm white timber double glazed units.

The new units will provide better weather proofing and thermal efficiency than the current ones there.

The design and styling of the windows will be similar in appearance to the existing.

The windows will be FENSA registered.

Any current means of escape and internal fire alarms will not be amended or altered in any way as these are just like for like window replacements to the ground floor.

As the application relates to the replacement of the external windows there is no requirement for a fire statement.
