1. DESCRIPTION OF THE PROPOSAL AND ANY RELEVANT PLANNING HISTORY

Details pursuant to condition (U0177144) Door opening of Planning Permission 24/0029/LBC

The comprehensive list of planning history can be found above however the most relevant planning history is as follows:

Development Management

Status: GTD Application:24/0029/LBC
Date:15/03/2024 B Block Toilet and Corridor Refurbishment and Alteration Works in the
Basement under the Grade I Listed Waldegrave Suite

2. EXPLANATION OF OFFICER RECOMMENDATION

The relevant condition states:

Upon opening up of the wall above the door to the Male Toilet, but prior to any demolition work, a survey is to be carried out to establish the nature of the structure here together with an assessment of its significance, if any, is to be submitted to the Local Planning Authority for approval in writing. If, in light of the internal survey, increasing the height of the door and installation of new lintel is thought to be acceptable a scaled elevation drawing of the proposed door should be submitted and approved by the Local Planning Authority before the work is put in hand.

Reason: To ensure the original fabric and significance of the listed building is preserved.

The applicant has submitted photographs of the site having opened up the walls (see image below), together with proposed, detailed elevation drawings and floor plans to clarify which door is to be raised in height.

Prior to opening up of the walls, it was not known why the door to the male toilet was of a different height and whether there were historical reasons for this or integral structural elements underneath the plaster.

On opening up, it appears that the heights of the doors have been reduced by ordinary brick infill for an unknown reason. This is not considered to be of particular historical importance to the building or its overall significance. No objections have been received from the Conservation Officer.

Consequently, it is thought that removing this infill and increasing the height of the door as per the detailed elevation drawing would be acceptable.
