Comment: I object to this planning application. 97 High Street is situated in a Conservation Area and is a Building of Townscape Merit. The original, traditional and characterful painted wood shop front window has been removed and replaced with a characterless, modern plate glass shopfront which spoils the flow of the streetscape and is out of keeping with the original upstairs sash windows and the general architecture of this beautiful Victorian(?) building.

This shop front should be returned to its original style including the door.

I concur with all comments made by The Teddington Society.

To ignore this contravention of planning laws would surely open the floodgates for others to disregard the character of Teddington High Street.
