**Type of comment:** Support the proposal

**Comment:** I am aware of the terrible decay and damage that has occurred at No. 8 Montpelier Row. I am in principle, supporting the application with the proviso that it is carried out by people who are suitably qualified and experienced in renovating historic properties. It is an absolute tragedy and travesty that this once loved and cared for home has been allowed to decay to such extent that ceilings have collapsed and mould, rat infestation and falling debris. Will someone with qualifications in Grade 2\* listed buildings be ensuring that the work carried out is being correctly and sympathetically done. I have not seen any evidence to this so far.
