### Comments

**Type of comment:** Support the proposal

**Comment:** I refer LBRUT planning officers to the supporting comments I made in the previous application, which remain valid.

The applicant has sought to mitigate any perceived blank side elevation impact on the street scene and in so doing has achieved a more sympathetic and harmonious design in my view.

Not being party to the process but as the beneficiary of a similar mansard, I continue to not see any obvious valid planning, design or amenity reasons why this application should be refused. The mansards are set back behind parapets and do not the slightest harm to the character of the BTMs nor the conservation area.
