FOR DECISION DATED
5 August 2024

Dear Sir/Madam,

**The Town and Country Planning (Trees) Regulations 1999
Decision Notice**

Application: 24/T0528/TCA
Your ref: 22, Cambridge Cottages, Kew, ...
Our ref: DC/JAL/24/T0528/TCA/TCA
Applicant: Bahoshy
Agent: Mr Darryl Parkin

Thank you for your application for tree works received on **5 July 2024** for the site:

22 Cambridge Cottages Kew Richmond TW9 3AY

for

T1. Crab Apple

Poor in health due to Apple Scab

Rear Garden:

Fell in sections to ground level.

The tree's current height is 9m and crown spread is 7m

After the proposed works, the tree's height is 0m and the crown spread is 0m

The symptoms often first appear in late spring, when you'll see dark blotches (called lesions) on leaves, as well as a dark, velvety growth over the leaf surface. In summer, leaves turn yellow and fall prematurely, often leaving the tree mostly, or even completely, defoliated. Infected fruit are usually deformed and develop circular, rough spots on the skin. Fruit rot quickly and fall before ripening.

NO TREE PRESERVATION ORDER is to be made in this instance. The work may, therefore be undertaken subject to the condition(s) and informatives set out in the attached schedule but in any event a further notice to the Local Planning Authority will be required if the work specified is not completed within two years from the date of this permission.

Yours faithfully

A handwritten signature in black ink, appearing to read 'R. Angus', with a long horizontal flourish extending to the right.
