All in all, my thoughts are the same. Poor design, poor standard of accommodation, sunlight /daylight is poor, outlook is terrible and there are key bits of missing information from the Councils website in relation to sunlight / daylight and overheating. All of this is a symptom of the proposed scheme representing an overdevelopment of the site." In light of the above commentary and the previous reports which I have submitted this proposal should be declined. Finally, I would like to re-iterate that the local residents are aware of the need for the site to be renovated and we would be very keen to engage with the developer to help them find a solution that will be supported by the local residents and fall within planning rules.
