Type of comment: Object to the proposal

Comment: The proposal to use the entrance at the top of St Vincent Rd will cause significant disruption to the road and surrounding streets and raises substantial health and safety, safeguarding concerns. Unlike Runnymede Close, St Vincent Rd has residential properties either side of the road, the pathways and road are narrow and unsuitable for the many extra pedestrians. Currently children and parents already walk in the middle of the road as the pathways are too narrow causing significant safety issues. The end of the road around the gate is the only area vehicles can safely turn this will become a gathering/meeting point for the numerous parents and children. The proposal is an accident in waiting!
