

Tree Location Plan
 Clive Fowler Associates.
 September 2021.
 Originally produced in colour.

● A	A
● B	B
● C	C
● U	U

Tree Categories.

NOTES

All dimensions are to be checked on site by the contractor before any work is commenced.

In the case of apparent discrepancy refer immediately to Twickenham Surveys.

The accuracy and completeness of this survey is dependent on the original survey brief including the scale intended.

The type and extent of information and the survey accuracy will have been matched to the client's original requirements. Twickenham Surveys accepts no responsibility or liability to later users without prior consent.

Surveyed boundary features may not represent the extent of legal ownership.

The detail of this survey was established for a brief requiring a 1:100 plot. It is therefore suitable for plotting or planning/designing at scales of 1:100 or smaller.

The survey grid is not related to Ordnance Survey National Grid.

Level positions are indicated by a cross.

Levels relate to previous survey, carried out by others. This survey did not include locating underground services and equipment.

Tree griths are representative only and inference should be made to the tree schedule if included in the survey brief.

Tree species (where shown) should be checked with caution and expert identification is advised.

Levels are taken on 5th June unless otherwise indicated.
