Enquiry: I am objecting to the deadline of 9 August for making comments about this planning proposal:

- The letter regarding the neighbourhood consultation was dated the 19 July 2024 but we did not receive it well into the following week. Therefore the consultation period is far shorter than 21 days.
- The sending of the letter coincided with the start of the summer holidays, so many people saw the letter upon their return, after the end of the consultation period.
- A number of people did not receive the letter at all and could not respond.
- The neighbour consultation does not mention that turning St Vincent Road into a school street is part of the planning application. The implications for residents are considerable because currently there are no parking restrictions. It seems that a majority of residents in the street are not in favour of parking restrictions, in particular not the severe ones that come with a school street.
- I wish to make a complaint about the way this neighbour consultation has been conducted so far.
