Description of Proposed Works Itelase describe the proposed works We want to enclose the open porch on the front of our house (under the existing porch roof) to increase the energy efficiency and security of our home (as per numerous developments in our street and surrounding area). The porch will be of brick construction to match the house with double glazed windows and a new front door. There will be three windows in total, one on either side of the door and a smaller one above the door that can be opened for ventilation. The works will include double brick walls, footings for the walls and a concrete floor. It will retain the existing roof, which is part of the original design of the property — a late Edwardian end of terrace. The porch will have internal lighting but not heating. A small portion (less than 1 metre) of the front garden wall will be removed to make way for the porch side wall. The overall intent is that the porch will appear as if it has always been there. Our property is not in a conservation area. We note that many porches are covered by permitted development rights but, while ours is less than 3 metres squared in area, it is within 2 metres of the site boundary and the existing roof height at the apex is over 3 metres from ground level (the new construction up to roof edge will be less than 3 metres in height). Design and construction of the porch will be carried out by Anglian Home Improvements, who are a reputable contractor.	Secondary number

Biodiversity net gain
Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 sets out that every planning permission granted for the development of land in England shall be deemed to have been granted subject to the 'biodiversity gain condition' requiring development to achieve a net gain of 10% of biodiversity value.
This is subject to exemptions, an exemption applies in relation to planning permission for a development which is the subject of a householder application, within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order (2015)*.
Applicants for planning permission are required to make a statement as to whether they believe the biodiversity gain condition will apply if permission is granted, please confirm:
☑ It is my belief that if permission is granted for the development to which this application relates the biodiversity gain condition would not apply
*A 'householder application' means an application for planning permission for development for an existing dwellinghouse, or development within the curtilage of such a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse which is not an application for change of use or an application to change the number of dwellings in a building.

Pre-application Advice Has assistance or prior advice been sought from the local authority about this application? ○ Yes ⊙ No
Authority Employee/Member With respect to the Authority, is the applicant and/or agent one of the following: (a) a member of staff (b) an elected member (c) related to a member of staff (d) related to an elected member
It is an important principle of decision-making that the process is open and transparent. For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority. Do any of the above statements apply? Yes No
Ownership Certificates and Agricultural Land Declaration Certificates under Article 14 - Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended) Please answer the following questions to determine which Certificate of Ownership you need to complete: A, B, C or D.
