Comments

Type of comment: Support the proposal

Comment: Our house is directly behind the property so clearly we could have concerns about being overlooked or losing the sun earlier in the day. However we have viewed the details of the application and discussed them with the applicant and we are very happy to support the application as detailed. The plans seem reasonable and are in keeping with and very similar to alterations that have already been made to adjacent properties - which presumably have already passed the planning process and hence must set a precedent for what is acceptable.
