## LBRUT Sustainable Construction Checklist - June 2020

This document forms part of the Sustainable Construction Checklist SPD. This document **must** be filled out as part of the planning application for the following developments: all residential development providing **one or more new residential units (including conversions leading to one or more new units)**, and all other forms of development providing **100sqm or more of non-residential floor space**. Developments including new non-residential development of less than 100sqm floor space, extensions less than 100sqm, and other conversions are strongly encouraged to comply with this checklist. Where further information is requested, please either fill in the relevant section, or refer to the document where this information may be found in detail, e.g. Flood Risk Assessment or similar. **Further guidance** on completing the Checklist may be found in the Justification and Guidance section of this SPD.

Property Name (if relevant):	The Green			Application N	lo. (if known):			
Address (include. postcode)	The Green Twicke	nham, TW2 5AG, Richmond.						
Completed by:								
For Non-Residential				For Residential				
Size of development (m2)	0			Number of dwellings	5			
	INCE (RESIDENTIAL	AND NON-RESIDENTIAL)						
Energy Assessment								
		that demonstrates the expected feasibility of CHP/CCHP and cor			efficiency and		TRUE	
Tenewable energy me	easures, including the	easibility of CHF/CCHF and cor	ninunity neating systems? If y	es, please select TROE.

		Score		
	ed for Cooling How does the development incorporate cooling measures? Tick all that apply:	50016		
			e	FALSE
	Energy efficient design incorporating specific heat demand to less than or equal to 15 kWh/sqm		6 2	
	Reduce heat entering a building through providing/improving insulation and living roofs and walls Reduce heat entering a building through bedding the discussion and living roofs and walls		2	TRUE
	Reduce heat entering a building through shading		3	TRUE
	Exposed thermal mass and high ceilings		1 - C	
	Passive ventilation		3	TRUE
	Mechanical ventilation with heat recovery		1	TRUE
	Active cooling systems, i.e. Air Conditioning Unit See Draft London Plan SI4		0	FALS
2 Hea	at Generation			
	How have the heating and cooling systems, with preference to the heating system hierarchy, been selected (defined in London Plan policy SI3) Tick all heating and cooling systems that will be used in the development:	0		
	county systems that will be used in the development. Connection to existing heating or cooling networks powered by renewable energy	Score	6	FALSE
	Connection to existing heating or cooling networks powered by gas or electricity		5	FALSE
	Site wide CHP network powered by renewable energy		5 4	FALS
	Site wide CHP network powered by gas		3	FALS
	Communal heating and cooling powered by gas		2	FALS
	Communal heating and cooling powered by gas or electricity		1	FALS
	Individual heating and cooling		0	TRUE
3 Pol	See Draft London Plan SI3 Ilution: Air, Noise and Light			
	Does the development plan to implement reduction strategies for dust emissions from construction sites?		2	TRUE
	Does the development plan to include a biomass boiler?			FALS
	If yes, please refer to the biomass guidelines for the Borough of Richmond, please see guidance for supplementary			
	information. If the proposed boiler is of a qualifying size, you may need to complete the information request form found on the Richmond website.			
	Has an air guality impact assessment been provided			FALSE
	If yes, has 'Emissions Neutral' been achieved		1	Please Sel
	If yes, have occupants of new development been protected from existing pollution		1	Please Sel
	If no to any of the above are there any sensitive receptors as defined in Policy LP 10 present?		-1	Please Sel
	see Policy LP 10			
	Please tick only one option below			
	Has the development taken measures to reduce existing noise and enhance the existing soundscape of the site?		3	Please Sele
	Has the development taken care to not create any new noise generation/transmission issues in its intended operation?		1	TRUE
	see Policy LP 10			
	Has the development taken measures to reduce light pollution impacts on character, residential amenity and biodiversity?		3	TRUE
	see Policy LP 10			
	Have you attached a Lighting Pollution Report?			
ease	give any additional relevant comments to the Energy Use and Pollution Section below	Subtot	al 16	
5456				

	rovision for the safe efficient and sustainable movement of people and goods Does your development provide opportunities for occupants to use innovative travel technologies?		TRUE
lease	e explain:		
		Score	
	Does your development provide for 100% active provision for electric vehicle charging point(s) and have you successfully demonstrated that it would be able to operate satisfactorily in the future expectation of all vehicles being electrically powered?	2	TRUE
	For major developments ONLY: Has a Transport Assessment been produced for your development based on TfL's Best Practice Guidance? If you have provided a Transport Assessment as part of your planning application, please tick here and move to Section 3 of this Checklist.	5	Please Sele
	See policy LP44 For smaller developments ONLY: Have you provided a Transport Statement?	5	Please Sele
	Does your development provide cycle storage? (Standard space requirements are set out in the Council's Parking Standards - Local Plan Appendix 3) If so, for how many bicycles?	2	TRUE
	Is this shown on the site plans?		TRUE
	See Local Plan Appendix 3 Will the development create or improve links with local and wider transport networks? If yes, please provide details.	2	FALSE
		Subtotal 4	
ease	e give any additional relevant comments to the Transport Section below

5	FLOODING AND DRAINAGE	
	ELCODING AND DRAINAGE tigating the risks of flociding and other impacts of climate change in the borough	
3.1 Min a.	Is your site located in a high flood risk zone (Zone 3)? (Indicate if yes) - 2	FALSE
a.	is your site located in a high hoor risk cone (cone of (indicate in yes) -2 Have you submitted a Flood Risk Assessment? (indicate if yes)	Please Select:
	have you submitted a riood Risk Assessment? (indicate il yes)	Please Select:
b.	Which of the following measures of the desired historychy are incorrected ante your site? (field all that apply)	
D.	Which of the following measures of the drainage hierarchy are incorporated onto your site? (tick all that apply) Store rainwater for later use 5	FALSE
		TRUE
	Attenuate rainwater in ponds or open water features 4	FALSE
	Store rainwater in tanks for gradual release to a watercourse 3	Please Select:
	Discharge rainwater directly to watercourse 2	TRUE
	Discharge rainwater to surface water drain 1	TRUE
	Discharge rainwater to combined sewer 0	FALSE
	Have you submitted a Drainage Statement (Indicate if yes)	Please Select:
	See Policy LP 21 and Draft London Plan SL 13	
C.	Please give the change in area of permeable surfacing which will result from your development proposal:	
	Please provide details of the permeable surfacing below please represent a loss in permeable area as a negative number	
	Subtotal 6	
Ple	ease give any additional relevant comments to the Flooding and Drainage Section below	
6	IMPROVING RESOURCE EFFICIENCY	
6.1	I Reduce waste generated and amount disposed of by landfill though increasing level of re-use and recycling	
а.	Will demolition be required on your site prior to construction? [Points will only be awarded if 10% or greater of demolition waste is reused/recycled] 1	TRUE
	If so, what percentage of demolition waste will be reused in the new development?	
	What percentage of demolition waste will be recycled?	
b.	Does your site have any contaminated land? 1	FALSE
	Have you submitted an assessment of the site contamination? 2	Please Select:
	Are plans in place to remediate the contamination? 2	Please Select:
	Have you submitted a remediation plan? 1	Please Select:
	Are plans in place to include composting on site? 1	Please Select:
		1 10000 001000
C.	Will a waste management plan and facilities be in place in line with Policy LP24 Yes	
υ.		
6.2	2 Reducing levels of water waste	
a.	Will the following measures of water conservation be incorporated into the development? (Please tick all that apply):	
а.	Titting of water following incorporate into portion into provide into a propriet (incluse tak an una apply).	TRUE
		TRUE
		Please Select:
	Rainwater harvesting for internal use 4 Grevwater systems 4	
		Please Select:
	Fit a water meter 1	TRUE
_	Subtotal 3	
Ple	ease give any additional relevant comments to the Improving Resource Efficiency Section below
