Comments

Type of comment: Make a general observation

Comment: We would like to the planning officer to note that the existing replacement house was built about 12 years ago. It is significantly greater in footprint and volume than the original house, particularly at the rear. The submitted drawings inaccurately represent the position of our rear extension, which broadly aligns with the adjacent rear building line of No18. The pergola structure with louvred roof would be approximately 2.5 meters to the rear of our extension, at a height of 2.5 meters. We would be much welcome if this structure were set off the boundary and reduced in height.
