Comments

Type of comment: Object to the proposal

Comment: Objecting given that when Hampton Prep application was accepted no increase in the number of pupils would be allowed. This is clear deception of the locals who live on Gloucester, Carlisle and Scott's Drive, whom already have to endure parents parking over drives, illegally far from the curb and blocking the road because they want to park as close to the school as possible rather than walk 50 extra yards.

Teachers/workers from the school already park on Gloucester Road and in Carlisle Park throughout the day, and this will compound these problems. In addition to this more parents will bring more cars that are far too large for the local roads.

The school already treats Carlisle Park as their own playing field, which is ridiculous given they are a private school and it is a public park. This will compound the problems for local park users when there are more students.

I object to this proposal based on reduced quality of life for residents on Gloucester and Carlisle Road, and Scott's Drive. Through increased pollution, dangerous levels of congestion, reduced parking, parents and a school who make no attempts to live alongside residents amicably. This is purely a business/profit-based decision, and not one to benefit any locals (especially considering the school catchment is so wide).
