

## Comment on a planning application

### Application Details

**Application:** 24/2270/HOT

**Address:** Garrick Cottage Church Street Hampton TW12 2EG

**Proposal:** To provide a new vehicular access with hardstanding to the front, and a single storey garden building on the north west side of Garrick Cottage, Church Street, Hampton

### Comments Made By

**Name:** Mr. Dritan Zefi

**Address:** 15 Johnsons Drive Hampton TW12 2EQ

### Comments

**Type of comment:** Object to the proposal

**Comment:** Formally object to the planning application for the proposed new vehicular access with hardstanding to the front, and a single storey garden building on the north west side of Garrick Cottage, Church Street, Hampton.

**Loss of Parking Spaces:** The introduction of a new vehicular access and hardstanding will result in the loss of valuable on-street parking spaces. Johnsons Drive is already heavily populated with cars, and the reduction in available parking will exacerbate the existing parking congestion. This will negatively impact residents and visitors who rely on these spaces.

**Reduction in Greenery:** The proposed development will lead to a significant reduction in the greenery and open space in the area. The loss of green space is detrimental to the local environment and the well-being of the community.

**Impact on Local Character:** The character of Church Street is defined by its historic and green surroundings. The proposed changes are not keeping with the traditional appearance and charm of the area. The introduction of the single story building will alter the visual appeal and could set a precedent for further developments that may erode the unique character of our street.

**Traffic and Safety Concerns:** The new vehicular access could lead to increased traffic and pose safety risks for pedestrians and the Johnsons Drive residents.

In conclusion, I urge the planning committee to consider the negative impacts this development will have on parking, greenery, local character, and safety. I respectfully request that this application be refused.
