

## 99 Atbara Road – Proposed Cycle Storage

Storage for at least two bicycles will be located on the side of the existing double garage closest to the garden, with access to the outside through the garage doors.

Bikes will be stored in a floor or wall mounted bike stand (with slots for 2 or more bikes). The stand will be secured to the wall or floor. Bikes will be secure in the locked garage (remote controlled doors and lockable door to garden) and bikes could also be locked to the stand itself for additional security.

Cycle Stand dimensions: 300mmD x 700mmW x 270mmH (example below).

2m space in front of stand will be reserved for bike parking and height of the garage is sufficient to store bikes vertically or horizontally.
